

# THE GelBit®

THE COLORED BIT THAT CORRESPONDS TO ITS GRIT

TECHNIGLASS

MADE IN THE USA

# Easy Identification for Beginners and Experienced Artists

The GelBit® features a high-quality diamond grit available in 1" (25mm) and 3/4" (19mm) diameters with Rapid, Standard, Fine, and Ultra Fine varieties.

## Identifiable and Attractive:

Bright neon color corresponds to grit for easy identification.

## Affordable Quality:

The GelBit offers the same quality as traditional grinding bits, yet at a fraction of the cost!

## Does Not Freeze Up on Shaft:

The GelBit is designed to disengage from the shaft easily and quickly.

## Universal:

Like all other Techniglass products, the GelBit accommodates every type of grinder.

## The Colored Bit that Corresponds to its Grit

Each type of the GelBit has its own color, which corresponds to its grit. This allows for easy identification when you need to change the bit in a hurry.

Orange – Rapid

Green – Standard

Yellow – Fine

Blue – Ultra Fine

## Installation and Use

### Loosen Set Screw

Loosen the set screw using the allen key provided, turning counter clockwise.

### Add Grinding Bit

Slide the bit down the shaft until approximately 1/8" of the diamond surface is exposed above the work surface.

### Lock

Secure the bit to the shaft by tightening the set screw.

### Fresh Grit

When the exposed diamond no longer grinds efficiently, loosen the set screw and move the bit up the motor shaft to expose a fresh section of diamond.

Item Number	Description
GB 3/4 R	GelBit 3/4" Rapid
GB 1 R	GelBit 1" Rapid
GB 3/4 S	GelBit 3/4" Standard
GB 1 S	GelBit 1" Standard

Item Number	Description
GB 3/4 F	GelBit 3/4" Fine
GB 1 F	GelBit 1" Fine
GB 3/4 UF	GelBit 3/4" Ultra Fine
GB 1 UF	GelBit 1" Ultra Fine
