

# THE EDGER<sup>®</sup>

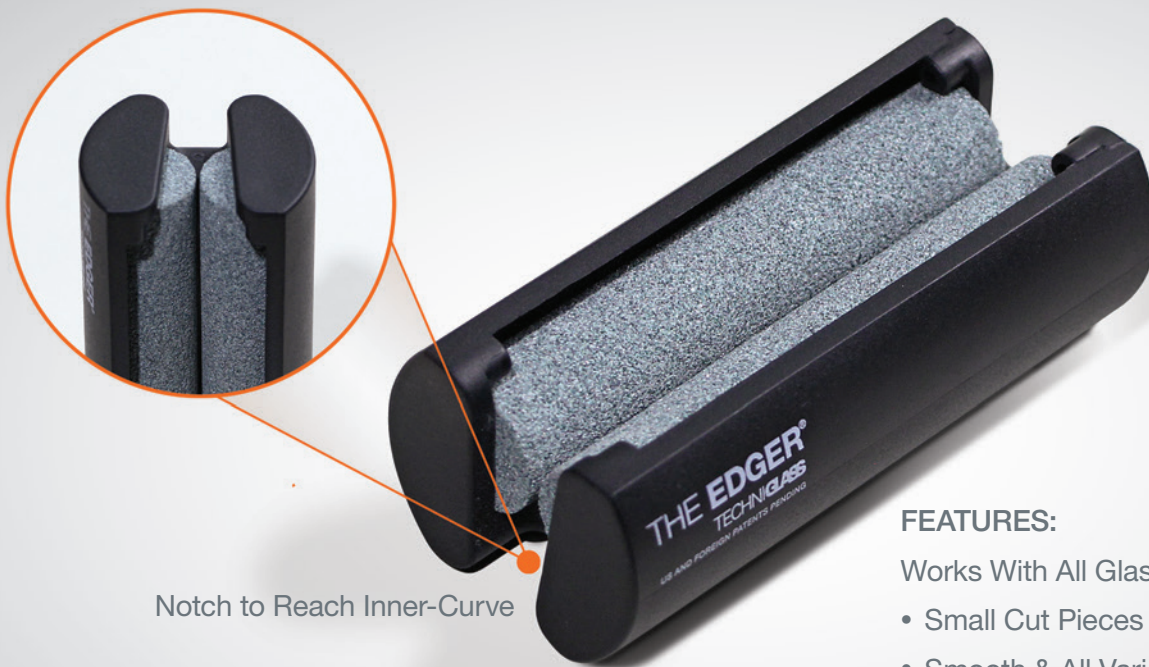

GLASS EDGE REFINING TOOL

**Removes Sharp Edges Quickly & Safely**

US AND FOREIGN PATENTS PENDING

**A SIMPLE, YET PRACTICAL TOOL DESIGNED TO ENHANCE SAFETY WHEN PREPARING GLASS EDGES FOR FOILING OR LEAD CAME ASSEMBLY.**

Two extra-fine stones work in parallel to refine both glass edges, further enhanced by a patent-pending notch that allows THE **EDGER** to reach into the tightest inside curves. Just one pass along the glass edge is enough to smooth out and eliminate dangerous, razor-sharp protrusions.

Notch to Reach Inner-Curve

**FEATURES:**

Works With All Glass Types

- Small Cut Pieces To Full Size Sheets
- Smooth & All Varieties of Textured Glass
- Accommodates Glass Thicknesses of 1/16" to 1/4" (1.6-6.4mm)

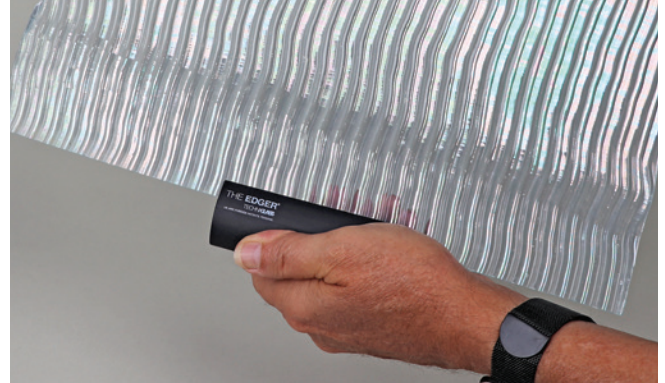

# THE EDGER® GLASS EDGE REFINING TOOL

Removes Sharp Edges Quickly & Safely

➔ Simply An Essential Tool for Professional Glass Artists, Hobbyists, and Instructors.

THE **EDGER** features two fine-grit abrasive stones, perfectly aligned to smooth both edge-corners, whether you're working on a straight edge or an inside curve.

Just one quick pass is enough to remove those sharp, hazardous bits and jagged spikes on all kinds of textured glass.

THE **EDGER** works on all glass sizes and shapes, from small cut pieces to full-size sheets.

The front face of THE **EDGER** with abrasive stones, showing primary working surface for straight edged pieces.

Overhead view of THE **EDGER** showing the patent-pending notch, allowing the device to smooth razor sharp edges on the tightest curves.
